# Eggs ‘n Honey Homestead 2026 Turkey

All our birds are provided locally sourced organic whole grains (no soy), black-oil sunflower seeds and are able to free range for insects, seeds, and greens in the fresh air and sunshine on our small family farm. Many people find that farm-raised turkey has a juicier, more flavorful meat. No chemicals, No added growth hormones, No antibiotics, No pesticides, No herbicides are used on our farm.

Our 2026 whole turkey price is $9.00/LB (ask about a custom cut if you want turkey parts). Our heritage breed turkeys are usually in the 9-15 pound range. Consider getting a second turkey--more drumsticks!--if you want more meat.

Turkeys will be fresh for a limited number of reservations and others are frozen (first come, first served).

A $20 deposit is required to reserve each turkey. Full payment is required when you pick up your turkey. The deposit amount will be deducted from the total cost of each turkey.

Deposits are non-refundable.
